INTERNSHIP

Project Intern, Booming Bulls Academy™ Jan 2023 - Aug 2023

- Research & Development (R&D)
- Project Management, Customer Requirement Gathering
- Designing graphics for social media marketing

PROJECTS

Student Enrollment Management System January 2024

- Built a system for managing student records, which includes adding, updating, and removing data, in an effective manner.
- Secure login features and data export to Excel files were implemented for user access.

Electronic Commerce website (for Electronic shop) April 2024

- Enabled users to easily find and compare products based on various criteria such as specifications and price.
- Created an easy-to-use UI with session login and a secure, seamless online checkout experience.

IoT-based Smart Home Automation System (using Cisco packet tracer) May 2024

- Developed an IoT-enabled smart home system that automates various home functions based on specific conditions, such as controlling lighting and appliances, and integrates a smoke detection system for enhanced safety and convenience.

To-Do List Application October 2023

- Enabled users to add, edit, delete, and prioritize tasks, with options to set deadlines & reminders.
